Flyerz Hockey

What is Flyerz Hockey?

We have partnered with Access Sport, to launch our inclusive Hockey pathway, enhancing the opportunities for all individuals to play our wonderful sport. We are taking the journey to support our clubs and organisations in building inclusive environments, for individuals with a disability to feel comfortable in playing hockey, ensuring that we are adapting the game to meet individual needs, to provide a quality experience. We believe that everyone has the right to access Hockey, regardless if they have a physical and learning disability.

The modifications made to the game are all based on the individual needs, including adapted equipment, smaller pitch and less players in a team.

What do you need?

Equipment

Adapted equipment pack that Hockey Wales can provide at £150.00 per kit bag including:

- 12 sticks (mixture of plastic and wooden)
- 12 balls (mixture of plastic balls, hockey balls and tennis balls)
- Activity pack – includes ideas of activities to play as part of a session

Workforce

A great cohesive team of volunteers; including those who may not be the best coaches but have a real passion to engage with the Flyerz players, individuals looking to gain an introduction into coaching and don't want the pressure to deliver a 'world class' session, just the basics will be good to engage the players.

Facility

Flyerz Hockey can be delivered in any sort of facility that has the right amount of space, it can be delivered in sports halls, village and community halls, outside Multi Use Games Areas or a Hockey pitch.
